

Call for papers, workshops and participation

The organizing committee is pleased to invite you to submit papers for **CAADence in architecture**, an international workshop and conference. The event will take place at the Faculty of Architecture of the **Budapest University of Technology and Economics, in Budapest (Hungary)** on the **16-17th June, 2016** in cooperation with leading CAAD industry members.

The focus of this forthcoming event is the changing role of architects in relation to the increasing integration of information-technology into the design process.

Through paper presentations and a workshop the committee wishes to spark a professional discourse amongst professors, researchers, practicing architects, PhD and regular students, who immerse themselves in different areas of computer aided architectural design methods and applications.

If you have further ideas and capability to organize your own workshop in the frame of this event, contact CAADence Organizing Team, please.

Topics include

Important dates

- 1 - BIM
- 2 - Smooth transition (geometry to CAAD)
- 3 - Visualization and communication
- 4 - Towards smart cities
- 5 - Didactics and digital education
- 6 - Media supported teaching
- 7 - Electronic design studio
- 8 - Generative design
- 9 - Collaborative design
- 10 - Simulation
- 11 - Modeling with scripting
- 12 - 3D shape grammar

Deadline for abstracts	10th March
... extended deadline	20th March
Acceptance of abstracts	20th March
... extended acceptance	30th March
Deadline for full papers	10th May
Acceptance of full papers	20th May
Deadline of early registration	15th April
Workshop and conference	16-17th June

Submission

You are requested to submit an abstract with a length of 150 to 200 words - along with references (10 at max).

You can make your submission here:
